

Introduction to Computer Science
Current Event 4 Questions

Article: *Why Are There Still So Few Women in Science?* page 1 - 9

Due: Monday, October 7

1. Summarize the first half of the article in 3-5 sentences
2. What research has been done to measure intelligence using SAT scores? Do you think that is a good metric?
3. What is the personal story of the author of this article?
4. Describe the reaction of her old advisor when she talks to him about her experience in college. Are you sympathetic to his approach to mentoring?
